

Accessible washroom · Side-wall rail

Side-wall support beside the toilet

Review the relationship between an L-shaped rail and the toilet around approach, sitting and standing.

The setting

Position the horizontal and vertical sections of the 702-L rail for the intended movements and wall conditions. The illustrated layout supports project discussion.

Have the project team confirm height, position and wall support for intended users and local requirements. The illustration does not replace installation drawings.

Planning points

01 Check product dimensions against the space.

02 Confirm plumbing or wall fixing conditions.

03 Allow room for everyday use and maintenance.
