ABOUT US

Established in 1993, Zhongshan Yijin has been becoming one of the leading Stainless Steel product manufacturers in China. We first specialized in manufacturing decorative products. From this position we have continued to grow our businesses as a project base to serve our customers in Hong Kong and worldwide since early 2005.

In 2006, in response to the ever-changing market environment, Yijin introduced fabrication of sink and stainless steel electric towel warmer drying rack. Zhongshan Yijin is proud to pioneer in employing automation with hand fabrication techniques. To provide higher standard of products to customers, we strived to grow our product quality and thus invested in various high-tech automations.

Furthermore, we are also ISO 9001-2008 certified and attained SAA and CE standards. We are committed to providing our customers with the best quality products and services.

Evolving beyond expectation – Yijin continues to go for our vision and mission for our customers.
