Selection & products

Build a clear project brief for wash sinks, deep sinks and washing workstations in healthcare spaces.

01

Define the intended use

Ask the project team to define each equipment task, operating sequence and room allocation.

02

Coordinate workspace

Review operator positions, bowl arrangements, adjacent equipment, and water and waste connections.

03

Record project requirements

Record the project's requested materials, fittings, cleaning approach and documentation for confirmation.

Products from the catalogue

HS23

Hospital Stainless Steel Wash Sink

WTA2303

Hospital Stainless Steel Deep Sink

WBT2602

Hospital Washing Workstation

A starting point for selection. Confirm configuration and supplied items when enquiring.

Your project brief

Bring these details together to make product selection, drawing review and quotation discussions more focused.

- [ ] Intended use: have the project team define the task at each workstation.
- [ ] Layout: show sink positions, working areas and adjacent equipment.
- [ ] Services and fittings: list water, drainage, controls and required accessories.
- [ ] Documentation: collate project specifications, cleaning requirements and requested information.

Project notes

Project name / Location / Contact / Required timing

Next step: prepare your enquiry

Share selected models, quantities, site drawings and the points on this page with the YIJIN team to confirm configuration and supplied items.

Product images and models: the existing YIJIN catalogue.
