Selection & products

Plan residential kitchens and bathrooms with sink and towel-warmer options from the YIJIN catalogue.

01

Start with everyday use

Use washing, food preparation and towel-storage routines to decide product locations and configurations.

02

Check cabinetry first

Coordinate sinks with cabinets, worktop openings and taps, and reserve the wall area for the towel warmer.

03

Agree the supplied items

Before ordering, confirm waste fittings, mounting accessories, finishes and electrical configuration.

Products from the catalogue

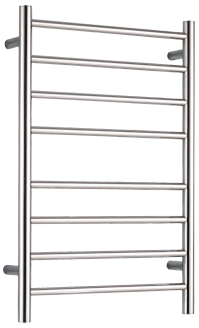

TAP3020

Stainless Steel Kitchen Sink

5042

Stainless Steel Kitchen Sink

HZ-RD7

Stainless Steel Electric Towel Warmer

A starting point for selection. Confirm configuration and supplied items when enquiring.

Your project brief

Bring these details together to make product selection, drawing review and quotation discussions more focused.

- [ ] Space information: provide cabinet, worktop and bathroom wall details.
- [ ] Dimensions: use the selected model's information to confirm openings and installation interfaces.
- [ ] Configuration: confirm taps, waste fittings, accessories and power supply.
- [ ] Order brief: list models, quantities, delivery address and required date.

Project notes

Project name / Location / Contact / Required timing

Next step: prepare your enquiry

Share selected models, quantities, site drawings and the points on this page with the YIJIN team to confirm configuration and supplied items.
