Selection & products

Bring towel warmers, wall niches and basins into a coordinated hotel bathroom product schedule.

01

Schedule each room type

Create an equipment schedule for each room type and shared area to compare requirements.

02

Coordinate finishes

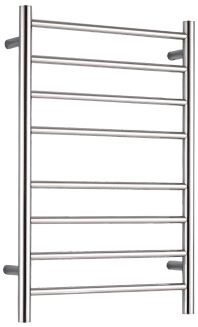

Review product finishes alongside wall layouts, niche openings and neighbouring fittings.

03

Plan service connections

Confirm the towel warmer's electrical configuration and coordinate basin and niche installation positions.

Products from the catalogue

HZ-RD7

Stainless Steel Electric Towel Warmer

WNSL

Stainless Steel Wall Niche

HWB-S10

Wall Mounted Stainless Steel Wash Basin

A starting point for selection. Confirm configuration and supplied items when enquiring.

Your project brief

Bring these details together to make product selection, drawing review and quotation discussions more focused.

- [ ] Room schedule: provide room types, room counts and product quantities.
- [ ] Finishes: confirm colour, surface finish and coordinated hardware.
- [ ] Drawings: show niche openings, walls, water and electrical connections.
- [ ] Samples and delivery: define mock-up room review and phased delivery needs.
