Selection & products

Coordinate wash basins, drinking fountains and sanitaryware across shared public spaces.

01

Plan by location

Group equipment by washroom and drinking areas, recording locations, circulation and quantities.

02

Check walls and services

Coordinate wall supports, water and waste connections, and maintenance access with site drawings.

03

Identify each variant

Where a model has multiple designs, specify both the model number and the required variant.

Products from the catalogue

HWB-S10

Wall Mounted Stainless Steel Wash Basin

DF-17

Stainless Steel Public Drinking Fountain

HM-T4

Wall Mounted Stainless Steel Toilet

A starting point for selection. Confirm configuration and supplied items when enquiring.

Your project brief

Bring these details together to make product selection, drawing review and quotation discussions more focused.

- [ ] Location schedule: mark equipment positions, quantities and intended use.
- [ ] Interfaces: provide wall, fixing, water and drainage drawings.
- [ ] Variant selection: specify wall mounted or pedestal design for DF-17.
- [ ] Operations: record cleaning, maintenance and spare-parts contact needs.

Project notes

Project name / Location / Contact / Required timing

Next step: prepare your enquiry

Share selected models, quantities, site drawings and the points on this page with the YIJIN team to confirm configuration and supplied items.
